Remember the place, 136 Federal street, Allegheny.

The Late Challenge.

It having been stated in yesterday's paper, that I refused to stand the offer of $500 to beat any of Logan's men, this is to certify that I went to Mr. Jones on Saturday with $900, when he refused to put up the money. With regard to the man Seigfried I had nothing to do, and never said anything to him in regard to making barrels.

JOHN DICKSON.
HENRY ROSENBAUGH.

A Wife at Forty.

"My notion of a wife at forty," said Jerrold, "is that a man should be able to change her like a bank note, for twenties." Presuming that our married men are content with their lot, and only desire to know where they can buy a superior article of boots and shoes, we would inform them that Joe Robinson & Co., No. 61 Market street, are now selling their entire stock at retail at about the same price as other dealers charge by the case. This deduction, with the fact that his stock is really a superior article, has created a demand for it that is really surprising. While other dealers are complaining of "dull times," "trade falling off," &c., Joe is doing a rushing business. We advise our readers to call in at 61 Market street, and satisfy themselves as to the truth of our assertion.

Hostetter's Celebrated Stomach Bitters

READ E. D. E. N. SOUTHWORTH'S LETTER.

PROSPECT COLLEGE, GEORGETOWN, D. C., April 2, 1863.

Messrs HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system, and undermined my health, that I had become a martyr to dyspepsia and nervous headache, recurring at short intervals, and defying all known remedies in the Materia Medica. I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment; it required but one bottle to convince me that I had found at last the right combination of remedies. The relief it afforded me has been complete. It is now some years since I first tried Hostetter's Bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a Standard Family Cordial with us, and even as a stimulant we like it better than anything else; out we use it in all nervous, bilious, and dyspeptic cases, from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,

E. D. E. N. SOUTHWORTH.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 64 Market street, corner of the Diamond and Fourth street.

WILLIAM FORMBY.

Interesting from Mexico.

NEW YORK, March 20.—Late Mexican advices per steamer Manhattan, with Vera Cruz dates to March 9th, show that the promised imperial pacification of the country is as far as ever from realization, and that the Republicans still maintain the contest with the invaders in nearly all the provinces and sections. Not the slightest intention of the French to withdraw is yet apparent. Several additional fights are recorded.

The victory of Tuxpan, over the Republicans in Michoa, is claimed to have been far more important than at first reported, and he afterwards had a brilliant reception at Morlid in his honor. Ortodez says he is sheriff that he fought the bands of seven chiefs combined, that he had a haru battle, and that his own losses were severe. Information is furnished regarding the critical position of the imperialists at Tampico. The Republican troops are threatening the town—being in force within twenty miles of it in the Pacific state, the imperialists were still confined to a few ports, the Republicans holding all the country. The latter had boldly attacked the garrison of Matamoras on occasions within five weeks.

Ex-Lieut. Maury, Maximillian's Minister of Colonization, had left for England, and it was rumored that he had been thus disposed of to avoid giving further offense to the United States.

One of the Belgian Envoys, sent over to condole with the Empress Charlotte, was shot and killed while en route from the Capitol to Vera Cruz, by guerrillas, who attacked the stage in which he was riding.

M. de Saligny, Napoleoa's Envoy, has left on his return to France.

The President Complimented.

NEW YORK, March 20.—The Manhattan Club of this city has elected President Johnson an honorary member, and requested the President to sit for a portrait. The President accepts the compliment.

POSITION OF AFFAIRS IN MEXICO.

Utah, Colorado and Indian Territory.

THE LOAN BILL.

The Court of Claims Act

WASHINGTON, March 20.—The United States Consul at Tabasco, Mexico, reports to the Department of State, January 30, that the position of affairs in that section is unchanged. The Consul is informed that hostilities have been waged along the Southern border of the State of Vera Cruz, since the issue of the Emperor Maximilian's proclamation, which had led to the massacre of those who were so unfortunate as to be taken prisoners of war, by either of the contending parties. The Consul informs the Department that in late explorations he has discovered the ruins of two ancient cities, which have remained unnoticed and unknown since the day of the conquest.

The Senate Committee on Territories yesterday heard a delegation of Indians from Indian Territory in favor of admitting that Territory into the Union as a State.

The House Committee on Territories are considering the question of the admittance of Utah, on the application of the Mormons. Among the leaders of the Mormons now in Washington is a son of Brigham Young, who is urging this measure.

It is said the question of the admission of Colorado will be reconsidered in the Senate.

The *Post's* Washington special states that the Ways and Means Committee has agreed to take up the loan bill to-morrow. It is probable that it will be so amended in relation to the powers of the Secretary of the Treasury, and in that form be passed by the House.

WASHINGTON, March 20.—The President has approved the act in relation to the Court of Claims. It repeals the fourteenth section of the act establishing that tribunal, which the section provided, that no money shall be paid out of the Treasury until passed upon by the Court, and till after an appropriation therefor shall be established by the Secretary of the Treasury. The present law allows either party to appeal to the Supreme Court of the United States from any decree which may hereafter be rendered in any case in which the amount in controversy exceeds $30,000. The amended act allows an appeal at any time within ninety days, excepting in such cases where the amounts found due by the Court have been paid at the Treasury.

APPROACHING CONNECTICUT ELECTION

ANOTHER LETTER FROM COMPTROLLER CLARKE.

NEW PORK DISEASE IN NEW YORK.

Railroad Employees Discharged.

NEW YORK, March 20.—A special to the *Commercial Advertiser*, says: There are positive indications that the administration intends to support Mr. English, Democratic nominee for Governor in Connecticut. Secretary Welles will probably write a letter endorsing the Republican nominee.

The same paper says that Comptroller Clarke has addressed a long letter to the Chairman of the Ways and Means Committee, in support of his recent letter to the Secretary of the Treasury, and in reply to Mr. Hooper's statement of Thursday last. Mr. Clarke then refers to various figures, which have been furnished by the Treasurer, and arg es at length from them that they sustain the position taken by him respecting the amount of money on hand or subject to the order of the Secretary of the Treasury, and says that they further reveal that the Government held on the first of the present month over $75,000,000 in coin, instead of $55,736,190 dollars, as represented by the Secretary's monthly statement. He further repeats that every monthly statement of the amount of coin and currency in the hands of the Treasurer since April last, has been no greater than that held by the Banks subject to his orders.

The *World's* special says: The new pork disease, trichina, has made its appearance in this city.

It is reported that the Jersey City locomotive works this morning discharged over three hundred of its employees. The reason for this change is not given.

The Committees on the Railroads, at Albany, has reported in favor of the Broadway underground railroad. It considers the project feasible, and that there would be no serious interruption of traffic.

The Methodist Episcopal Church, in its Conference held in this city, has adopted very strong anti-slavery resolutions in which the doctrines of impartial liberty, and the punishment of traitors are earnestly enunciated.

Accounts from India and China—King of Siam Dead.

NEW YORK, March 20.—Late accounts from India and China report the rebellion which has arisen from the embers of the suppressed Sepoy revolt was gaining ground. Shanghai was once threatened with an attack, and foreign residents were preparing to meet their assailants. Horrible accounts of the cruelties inflicted on captured rebels by the Chinese authorities, under the sanction of the British authorities, are published in the Hong Kong papers. In India, disturbances had again broken out on the northwestern frontier. Some of the native Princes were taking energetic action for the suppression of the slave trade.

The Russian encroachments in Central Asia still increased a topic of discussion. A St. Petersburg special correspondent asserts that the commercial advantages of the movement will accrue to Americans for many years to come.

The King of Siam is dead.

Gen. Burnside Nominated for Governor.

PROVIDENCE, R. I., March 20.—General Burnside was to-day nominated by acclamation, by the Union Convention for Governor.

The Unionists are firing a salute of one hundred guns in favor of the nomination of Gen. Burnside.

REVENUE COMMISSIONER'S CIRCULAR.

The Mexican Debt

SEIZURE OF SMUGGLED GOODS.

Admission of Colorado and Nebraska.

WASHINGTON, March 20.—The Commissioner of Internal Revenue has issued a circular calling the attention of Assessors and officers to the act recently passed declaring the meaning of certain parts of the Internal Revenue act. The third section requires all persons making returns to declare in such returns whether the rates and amounts therein contained are stated according to their values in legal tender currency. If the rates and amounts are stated in coined money, the Assessor receiving the returns must reduce them to their equivalent in currency at the time when, and the place where, the returns are receivable.

The friends of the Mexican Republic are circulating a statement of the aspect of the question based on the comparative financial condition of the country under republican and monarchial rules. It shows the total foreign debt, as recognized in 1862, to be nearly eighty two million; less than three million is due the French, nearly nine million, five hundred thousand to the Spanish, and the remainder to English subjects. While the annual expenditures of the Republic, as established by Congress in 1861 is stated at eleven million, those of the so-called Empire are said to be nearly fifty million.

It is further asserted that in addition to $150,000,000, as the amount of the public loans put out for Maximilian in France, and taken by French subjects, and for which Louis Napoleon is morally responsible, there have been expended from the public revenue of France up to the end of the year 1865, in this attempt to propagate monarchial institutions on the American continent, $150,000,000 more.

A Washington dispatch states the Commissioner of Customs to-day received intelligence from the northern border, of the seizure of 1,700 cigars, several hundred gallons of highwines, whisky, brandy, &c., and a large lot of linen, silks and cloth which had been smuggled.

It is asserted that the vote on the admission of Colorado will be speedily reconsidered in the Senate, and she will probably be admitted, as well as Nebraska.

THE FENIAN EXCITEMENT.

Rumored Expedition Sent Off.

SWEENY'S ESTIMATED FORCE.

NEW YORK, March 20.—The *Herald's* Toronto special dispatch says: A dispatch from Ottowa says that a battery left there for the front on Saturday. Other movements of troops to the front are reported from different points.—The organization of new companies is going forward with great rapidity and the alarm seems unabated. Every body says that the Fenians mean a desperate attempt to obtain Canada to use as a base, and very little importance is placed on the intelligent character of Government's professions of observing neutrality. The authorities feel that they can expect no sympathy from the United States, and must help themselves if they would maintain peace.

Statements show that ten thousand regulars and ten thousand volunteers are under arms, and 10,000 more could be immediately called, drilled and armed, but not under pay, making thirty-five thousand men ready at a moment's notice.

In this city the Central Council of Fenians at Union Square, were in secret session all through yesterday, but nothing of their proceedings will be made public. Drilling and rifles are still flowing in both here and at the several headquarters, and it is reported that some important features are now in process of development.

It is currently reported that O'Mahoney himself within a few days, sent off an expedition of five thousand men to some point unknown to the public.

The total strength of Sweeney's force organized into regiments and battalions, up to today, is given at 25,600. It is stated that before a month passes the number will be doubled.

XXXVIth CONGRESS---FIRST SESSION

WASHINGTON, March 20, 1866.

SENATE.

Mr. Fessenden reported from the Finance Committee a bill making appropriations for the support of the Military Academy with amendments, which strikes out the provision prohibiting the payment of money in violation of the oath of office, act of 1862, to cadets appointed since January last, from the States lately in rebellion. The appropriation for the library is increased, and that for repairs of officers quarters and some other amendments.

A joint resolution of the Virginia Legislature was presented, asking for a modification of the tax on cigars. Referred to the Committee on the District of Columbia.

An appropriation of $25,000 for the relief of the colored people of the District was presented.

Mr. Saulsbury offered an amendment appropriating $25,000 for distribution among the destitute white people of the District.

The Senate rejected the amendment; yeas 15, nays 24.

The bill was called up to encourage telegraphic communication between the United States and the Island of Cuba, and the other West India Islands and the Spanish Main, in behalf of Messrs. Hamilton, Delafield and other corporators.

Mr. Sherman objected to granting the subsidy proposed by this bill to private individuals.

Mr. Chandler said there was great expense and hazard in the undertaking, and some such inducement must be held out.

Mr. Morrill thought there was no monopoly in it.

Mr. Sherman moved to amend by striking out the word "sole" before "privilege." Lost, yeas 15, nays 17.

Unable to agree upon its provisions, the Senate adjourned.

HOUSE.

Mr. Smith introduced a joint resolution giving the thanks of Congress to Major-Generals Gordon Granger and James A. Garfield, and to the men in such terms as may express their gallantry and heroic conduct in saving the Cumberland, which was referred to the Committee on Military Affairs.

The House then proceeded to the unfinished business of yesterday.

Pending the bill making the appropriation for the legislative, executive and judicial expenses of the government, Mr. Washburne wished to amend by striking out the paragraph increasing the salaries of the directors, treasurer, secretary, cashier, and other officers and clerks of the Mint of Philadelphia.

A vote was taken by yeas and nays, and so the amendment was then passed.

Mr. McKee advocated the passage of an act of indemnity for military officers, and desiring that it should apply to Kentucky.

Mr. Garfield, advocating the bill, said he did not doubt that many military acts would be held which could not be sustained in the courts of the United States.

Mr. Ross opposed the bill, arguing that persons who had been punished wrongfully and arbitrarily should not be deprived of the remedy which the laws of their country gave them against wrong-doers.

Mr. Cox said he had evidence in his possession to show that there was a disposition manifested in Kentucky to punish Union men there for acts done during the war. Under military authority fifteen hundred suits had been brought in that State, against men for doing acts which they had been commanded by their military superiors to do. The single principle involved in this bill was whether the Government would protect the men who had been engaged in executing its laws and suppressing the rebellion.

The bill passed by a party vote. Yeas, 112; nays, 31.

Mr. Stevens returning the loan bill, said that in this bill he had been induced, through violation of public faith and of public law, it would give him pleasure to vote for it, and read from the act exempting all bonds, Treasury notes and coupons from taxation by State or municipal authority.

The House refused the previous question and recommitted it to the Ways and Means Committee.

Mr. Lawrence introduced a resolution which was adopted, instructing the Committee on Military Affairs to inquire as to the propriety of providing for the publication of a work giving a topographical map of the battle fields of the rebellion, with roads, ravines, plans of battle, disposition of troops, landscape views of the battle fields, plans of forts, breastworks, &c.

The House proceeded, as the next business in order during the morning hour, to the consideration of the bill reported last week by the Judiciary Committee, to amend the act of March 3d, 1861, relating to the *habeas corpus*, and regulating the judicial proceedings in certain courts.

Mr. Rogers addressed the House in opposition to the bill.

Messrs. McKee and Smith advocated the passage of the bill, and Mr. Ross opposed the motion to re-commit the bill. Passed—yeas, 112, nays, 31.

A bill as reported from the Ways and Means Committee, that no exemption from liability to State or municipal taxation shall extend to the national loan bill. Recommitted with order of the President.

The House went into a Committee on the Whole and took up the Consular Appropriation bill.

Mr. Brooks argued the propriety of proposing a treaty for maintaining a squadron on the African coast.

The amendment appointing a Solicitor to the State Department was amended.

Mr. Banks moved to insert before the word "Mexico," the word "Republic of," which was agreed to.

The bill was then laid aside to be reported to the House.

The Post Office Appropriation bill was then taken up. It was changed slightly, and laid aside to be reported.

The Committee rose, and both bills were reported.

The Post Office Appropriation bill was then passed.

Action on the Diplomatic Appropriation bill was postponed till to-morrow.

The joint resolution relative to foreign criminals was referred to the Foreign Committee.

The bill relative to the annual inspection of Indian affairs was referred to the Indian Committee.

Adjourned.

Resignation of Major-Gen. Custar.

NEW YORK, March 20.—A Washington special says: The resignation of Major-General W. B. Custar was accepted, to date from the 16th instant.

Affairs in Mexico—French Troops not to be Withdrawn—Maury's Land Distribution.

NEW YORK, March 20.—The *Times'* City of Mexico correspondent mentions the arrival of five hundred disgusted confederates. The only settler in a fair way of success is General Shelby. He says there is great disappointment expressed by the Southern emigrants. The few on the spot have claimed the best land for themselves and the friendly Maury has actually given the best land to his son. At last Maury has found his level. There is but one opinion about him here. The Emperor, his master, the Minister, the Mexican General, the French authorities and his brother confederates consider him a humbug of the first water. He seems at last to take the plain hints that have been thrown at him, and he is going to Europe.

The *Tribune's* Paris correspondent writes: Very intimate personal friends of the Emperor state positively, that there is no present intention of withdrawing the troops from Mexico, that all the speeches from the Throne meant, was that when the French interests were fully secured, and the purposes of the expedition accomplished by the consolidation of the Mexican Government, then, and not before, the army will be immediately recalled, and this certain future consideration at this time. The American public will perceive that their satisfaction over the Imperial speech has been the result rather of their own wishes than of a considerate scrutiny of the words and nature of Napoleon. My own opinion is, that the Imperial declarations are good, just so far as they are confirmed by act, and no farther, that it will be a very bad policy for our people or our government to forget, that Napoleon the Third will bear watching.

The Attempt to Assassinate Seward—Confession of an Assassin.

LOUISVILLE, Ky., March 20.—A man named King, who was arrested a few days ago for a theft recently committed in Ohio, awaiting in jail a requisition from the Governor of Ohio, has confessed to Harris, a recently confined Government detective, that he (King), not Payne, was the man who attempted to assassinate Secretary Seward. This conversation being repeated to Major General Jeff. C. Davis, who temporarily commands this department, Davis telegraphed to Washington for parties who were acquainted with the facts of the assassination conspiracy, to come and investigate the affair. King is identified here as having been a rebel spy during the rebellion.

From Rio Janeiro—River Platte War.

NEW YORK, March 20.—The *Herald's* Rio Janeiro correspondent gives further particulars regarding the River Platte war. Immense preparations were making for the battle which was imminent at the latest advices. The allied army of the Brazilians, Argentines and Uraguayans, numbering about fifty thousand men, and supported by a considerable and an efficient naval fleet, lay on the South bank of the Parana river, in the vicinity of Paso De La Patria, and confronted on the North side by the Paraguayans, estimated at only 20,000 extremely well fed and great strength are, however, possessed by the latter supposed to equalize to some extent the advantage over those of their enemies.

The Fenians.

WASHINGTON, March 20.—The government does not seem to be apprehensive that the Fenians will attempt an invasion of the British provinces, nor is the British Minister seriously alarmed on the subject. Nothing is known here to justify the belief that the Fenians have as yet gone beyond holding meetings, and making collections of money in aid of their cause. Certainly nothing has been done of an belligerent character to authorize the government to interfere.

The Late Jamaica Revolt.

NEW YORK, March 20.—The further progress of the Royal Commission in their investigation into the Jamaica revolt, is reported in the *Herald's* Kingston correspondence.

The entire British West India squadron has been ordered to Jamaica.

A strong feeling in favor of the annexation of Jamaica to the United States, is manifesting itself among the people of that Island.

The Fires at Havana.

NEW YORK, March 20.—Further advices from Havana, per steamer Manhattan, state that the numerous recent fires throughout the island are attributed to the Havana journals to negro incendiaries. The discovery of a plot on the part of slave traders to destroy one of the Havana newspaper offices is reported.

The Rinderpest.

PHILADELPHIA, March 20.—Dr. W. Schmartz, an eminent physician in this city, is prepared to prove that rinderpest is caused by a parasite, growing in the skin, and will be checked by washing the animals with a solution of corrosive sublimate.

Iowa Legislature and Gen. Custar.

NEW YORK, March 20.—The *Times* states that the House of the Iowa Legislature has passed resolutions approving the trial and punishment of Major-General Custar, for alleged cruel treatment of Iowa soldiers.

Cotton Passed Cairo.

ST. LOUIS, March 20.—Twenty-six hundred bales of cotton passed Cairo for Cincinnati the past two weeks, eight hundred for St. Louis, and one thousand for New Orleans.

Death of Professor Beck.

BOSTON, March 20.—Dr. Charles Beck, formerly a Professor in Harvard College, died at his residence yesterday, of apoplexy. He was 70 years of age.

CITY AND SUBURBAN.

The Pittsburgh, Fort Wayne and Chicago Railway—The Business of the Year 1865.

The annual reports of the Pittsburgh, Fort Wayne and Chicago Railway Company were made to, and published by the Board of Directors at the Transfer Agency in New York, last week, preliminary to the general meeting of the shareholders, which will take place in this city to-day. The operations of the year 1865, compared with 1864, are as follows:

	1865.	1864.
Gross traffic	$ 8,489,009	$7,120,465
At an expense of	5,205,006	4,101,236

In 1865	887,900*
	$4,442,600

*After 10 ₱ cent. cash to Stockholders.

The following note from the General Superintendent of the Road accounts for part of the falling off in the traffic of last month:

PITTSBURGH, New York, March 16, 1866.

J. D. LANIER, Esq.—You will observe from report of February a large falling off in receipts. I deem it important that you should fully understand the cause of this large decrease. 1. Owing to the loss of a bridge by flood on the Erie and Pittsburgh Railroad, we had but a few days' business. 2. That company, for two months, by low fares of freight, entire business from Chicago on account of the snow and extreme cold weather. The above causes, joining that of February, reduced our receipts from $75,000 to $100,000.

Yours truly, J. H. MCCULLOUGH.

The Atlantic Monthly for April

is just out. It opens with the first of a series of papers on "The Last Days of Walter Savage Landor," written by Miss Kate Field. "Were they Crickets?" is an account of the mysterious disappearance of the Jamaica mail, who was spirited away by the ghost of Copernicus to the planet Mars, where he encountered strange creatures and wonders. "Ballads of Baby Carriage," by J. T. Trowbridge, is a good story, the scene of which lies in Paris. "Sainte Beuve," is the subject of an admirable essay by John Foster Kirk, and is followed by "Lucile the Bold. "A Struggle for Shelter," by Miss C. B. Hawes, is a pleasant article on the expenses of living in and around Paris. Dr. Holmes contributes a well written article on the Insurrection in Jamaica. The political paper of the number is entitled "The President and Congress," and is from the pen of Hon. Reverdy Johns," "The Chimney Corner," and "Griffith Gaunt" are continued. "Our Young Folks," also published by Ticknor & Fields, is also excellent this month. Every page is illustrated, and young people will derive from its pages instruction as well as entertainment.

Both the above are for sale by Hunt & Co., Masonic Hall Fifth street.

Diseases of the Eye, Ear and Catarrh.

Dr. Gardner, who is now in our city, stopping at the Monongahela House, comes to us with the highest testimonials as one of the most scientific and successful eye and ear surgeons in the West. The press throughout the country do not hesitate to recommend him, and we have no hesitation in advising our friends who are suffering from any disease peculiar to these organs, to call upon him at his rooms at the Monongahela House.

The School Exhibition.

—We were very much gratified at the large attendance at La Fayette Hall last night, to witness the performances of the pupils of the Eighth Ward School. The entire entertainment was highly creditable to pupils and preceptors, and we are sure that the parents must have been pleased with the manner in which the scholars acquitted themselves.

Death of a Prominent Citizen.

—B. Rush Petriken, Esq., well known throughout this and adjoining States, died on the 19th inst., at Lock Haven, after a protracted and severe illness.

Adultery.

—Margaret A. Lindsey, colored, was yesterday committed to jail, by Alderman Strain, to answer a further hearing to-day, on a charge of adultery preferred by Ann Rebecca Palsor.

Meeting to "Sustain" President Johnson—A Ludicrous Affair.—"Music by the Band."

The friends of President Johnson assembled on Thursday evening, pursuant to call, at City Hall, but not in that building, as they had been refused the use of the Hall, for the reason stated in our paper yesterday. A band of music paraded the streets prior to the hour of meeting, and a mixed assemblage, variously estimated at from seven to fifteen hundred, had collected on Market street by half-past seven o'clock. A couple of tallow candles had been procured by a well known dealer in the article, and after "music by the band" ex-Mayor Lowry rose and announced a list of officers for the meeting, headed by Col. Samuel McKelvy as Chairman, and followed by a number of Vice Presidents, only two of whom we observed in the surrounding darkness. Col. McKelvy briefly thanked the meeting for the honor conferred, and a committee on resolutions was appointed, after which there was "music by the band."

R. B. Carnahan, Esq., United States District Attorney, was then called upon and delivered a speech, in which he alluded to the "radical" differences between the President and Congress, and asked, "which will you sustain?" The response of the audience was something after this fashion: "Congress!" "Congress!" "The President!" "The President!" "Congress!" etc. This rather discomfitted the speaker, but after he had recovered himself he remarked that gentlemen had a right to say "Congress," if they believed Congress was right. He stated that he always bowed with submission to the "verdict of the jury," whatever that might be, and he was willing to abide by their verdict.

There was more "music by the band," after which the President announced that the Chairman of the Committee on Resolutions was ready to report.

Ex-Mayor Lowry then ascended the platform, or "bench," and, with the assistance of a representative of the press, who held the candle, succeeded in deciphering the report.

The question was then taken on the adoption of the resolutions, and the yeas and nays were about equally divided—the "noes" being followed by numerous groans.

Next came "music by the band," after which there were cries for "Shannon," "Swartzwelder," "Sawyer," and others, but it was finally calling "spirits from the vasty deep," as "nary a one" responded.

The Chairman now manifested a great deal of uneasiness, making a complete circuit of the audience, peering through the darkness, and asking in a stentorian voice, "Is Judge Shannon present?" "Is Mr. Swartzwelder in the crowd?" There being no response, he was happily relieved by some one moving an adjournment "to meet at the call of the President"—but whether it was President Johnson or President McKelvy was not stated. The motion to adjourn was put, but although the "noes" had it the meeting was declared adjourned, and the audience dispersed to the step of "music by the band." The meeting was entirely spiritless, without the slightest evidences of enthusiasm, and the crowd would have been extremely small had it not been for the "music of the band."

Pittsburgh Temperance League.

The Pittsburgh Temperance League met last evening in the Lecture Room of the First Presbyterian Church on wood street. Dr. A. G. McCandless, President, occupied the chair. Proceedings opened with prayer by the Rev. Sylvester Scovel. R. C. Miller, Esq., Secretary, read the minutes of the previous meeting, which were approved.

Short addresses on the merits of the bill now before the Legislature were made by Alderman Steel, Dr. Wray, President McCandless, *J. D.* Bailey, Samuel McMasters, D. Robinson Esqs., and others.

On motion, a committee was appointed to confer with J. B. Gough, Esq., on the state of the temperance question in this county, with the view, as we understand, of securing his services to deliver an address on the subject before a mass meeting during his stay in the city. The committee is as follows: Rev. William Little Esqs., Rev. Mr. Scovel, Prof. Dickson, Dr. Douglas and Dr. McCandless. The committee on the Banking House of Robinson, McClean & Co., Fourth street, on Thursday morning at 10 o'clock.

The Executive Committee were instructed to procure a hall for the next meeting, to be held on Tuesday evening next. The President was instructed to communicate with the Allegheny City Temperance League to secure their co-operation.

Adjourned with a benediction.

Shooting Affair in Allegheny.

While John Metz, a resident of Saw Mill alley, in the 9th ward, Allegheny, was passing along First street, in the Third ward, about ten o'clock on Monday night, in company with two friends, they encountered a gang of boys and young men, numbering about ten or twelve men named Peter Barnes and Archibald Taylor. One of the lads struck a friend of Metz, who escaped the trio pursuing in the sport of "knocking Barnes' hat off. The latter ran a short distance from the parties, and upon returning failed to find his head gear. Upon this he grew excited, and accused Metz and some one unless the article was produced, and this was responded to by Metz, who threw off his coat and approached Barnes in a threatening manner. The latter drew a knife and a short struggle and told Metz to "stand off," and upon his refusing to do so, produced a revolver and fired it, the shot taking effect in Metz's left hand, inflicting a serious though not fatal wound. A second shot was fired by Taylor, but failed to reach the destination for which it was aimed. Officer Sherman, of the night watch, happened to be on hand, and succeeded in arresting the colored men, who, on a hearing before Mayor Morrison to-day, were held to bail to answer a charge of aggravated assault and battery.

Alleged Aggravated Assault.

On Monday evening, a man named Joseph Felter, appeared before Mayor McCarthy, of Allegheny, and made oath, charging one Joseph Comstock with aggravated assault and battery. Felter was apparently in a very weak condition, and stated that he was set upon near Eichenmiller's beer hall, on the corner of South Canal and Chesnut streets, in the Fourth ward, and that on Tuesday night of last week, Comstock, by the use of a knife, inflicted Comstock committing a nuisance and expostulated with him. This so enraged the defendant, that he pounced upon the prosecutor and struck him with the knife, which he claims to be a bayonet—once on the head and on the left arm near the elbow, inflicting two ghastly wounds, from the effects of which he has since been confined to his room and unable to prosecute. A warrant was issued for the arrest of the alleged guilty party, and officers Scott and Campbell yesterday took charge of Comstock, while at work in a cooper-shop in the ward. He represented the facts in an entirely different light, and demanded a further hearing. The request was granted by the Mayor, on bail being entered for his appearance to-day.

A New Church Edifice

The First Baptist Church of this city have just entered upon the work of rearing a noble Church Edifice, which, when completed, will reflect great credit upon the liberality of its erection, and will prove one of the finest of our public buildings. The completed building will consist of two united structures—a main building, fronting on Wood street, and a chapel fronting on Fourth street. The material is to be of stone, and the order of architecture the *Romanesque*. The architect, David S. Gendell, Esq., of Philadelphia, has certainly treated well in his plans, a rare combination of simplicity and elegance in all that pertains to architectural effect and interior comfort and convenience.

The contract for the chapel has been assigned to Boyd & Son, builders, of this city, and the work of excavation has already begun. The chapel is expected to be ready for public service late in the summer or early in September. We are glad to see these evidences of public spirit and noble christian enterprise in the efforts of the First Baptist Church. The men that have begun this enterprise are not the men to allow it to fail, or to fall short of the fullest final success.

George S. Bryan, Esq., recently confirmed as United States Judge of South Carolina, although a native of Charleston, has been an unwavering supporter of the

THE FINANCIAL FUTURE.

The financial outlook is not an encouraging one. The import entries at New York last week were $5,809,878, gold value, equal to $7,552,841 in currency, whilst the exports, currency value, were $3,669,361, or less than half the imports. Any man with half an eye can see that, at this rate, we shall speedily run into bankruptcy.

The gold value of the imports at New York, since July 1, 1865, the beginning of the current fiscal year, are $211,307,613, whilst for the same period during the year before, they were only $107,677,573. They have thus nearly doubled within a short space of time.

The premium on gold since last July will probably average 50 per cent.; but putting it at 40 per cent., the currency value of these imports will be $295,830,658. This, bear in mind, is the estimated value of the goods at the place of exportation, which is always underrated, for the sake of saving duties at the Custom House. A fair valuation of these goods would doubtless raise the amount to $320,000,000. These are our imports, at one port, for eight months.

The currency value of our exports, during the same period, from the same port, is only $153,399,876, which is a decrease upon the previous year of $18,189,091. We are thus exporting only one dollar in produce for two dollars in goods imported, and have thus, in eight months, run in debt to Europe over $150,000,000. The sum of $17,000,000 in gold has been sent out; but this is a mere drop in the bucket. Putting the imports at $320,000,000, and the exports at $170,000,000, gold included, the balance against us is still $150,000,000.

And this is going on steadily. Every week we are importing twice as much as we export; and by the first of July next the balance against us will be $225,000,000, upon the business of one year.

No nation can long stand such a drain as this. If it is to go on we may as well prepare for one of the grandest commercial smashes ever witnessed on this continent. We do not say this in the spirit of an alarmist; but because it is our duty to give the warning which these incontrovertible facts convey.

If we are asked how this enormous balance against us has been settled, so far, we answer, by the export of our national bonds. Foreign manufacturers buy these up at 30 per cent. discount (the price is 70 in the London market, the difference being equal to the premium on gold in New York,) and pay for them in goods, and with this large margin they can afford to sacrifice 30 per cent. on the price of their wares.

The goods we have imported are not therefore paid for, but we have simply substituted the nation's promises to pay for our own. We have temporarily saved the export of $150,000,000 in gold by the export of $150,000,000 of U. S. bonds, which will have to be paid for hereafter; or, in other words, $150,000,000 of U. S. bonds held a year ago by our citizens are now held by English merchants and bankers, and the nation at large has become a debtor to that amount to foreigners instead of to its own citizens.

To pay for foreign goods with government bonds is simply to change the form of indebtedness without extinguishing the indebtedness itself.

Attention cannot too soon be given to these startling facts. Congress owes it to the people to apply the remedies at once, and these are to be found in an immediate increase in duties on imported goods and in an early return to specie payments.

As to the first remedy, there seems to be little difference of opinion about it, but there is a strange hesitancy in applying it; and as to the latter, we are told that it cannot be accomplished without injury to the business of the country. But, to our mind, it is clear that the business of the country will be ruined if it is *not* accomplished. If ruin is inevitable either way, it can matter but little from what source it comes; but we are much less fearful of it coming from a resumption of specie payments than from a continuance of buying twice as much as we are able to pay for. To go on as we are doing is *certain* ruin; whilst the ruin predicted from a return to specie payments is merely problematical; and surely there should be no hesitancy in choosing between two such alternatives.

HONOR IN KENTUCKY.

The Frankfort *Yeoman*, which is the organ of the democrats of Kentucky, thinks treason "the highest recommendation" any democrat could have. Speaking of the approaching Democratic State Convention, it says:

"The Convention may possibly be composed in part of many returned rebels, and will be, therefore, far more acceptable to the people of Kentucky, than if it was composed of those who hounded on a rapacious military to ravage and rob our citizens; or than if it was composed of those who fattened on the spoils of the outrages it encouraged and directed. To denounce a Convention because many earnest men will be in it who took up arms for their political rights which they thought could be maintained in no other way, *is surely to give it a very high recommendation to the thoughtful and patriotic.*"

HARRISBURG POSTMASTERSHIP.—A letter from Harrisburg to the Philadelphia *Inquirer* says that BERGNER, of the Harrisburg *Telegraph*, is to be removed from the Postoffice in that city, and some one called KNIPE appointed in his place. The democrats say they have assurances to that effect from COWAN. If this had been known earlier, Mr. STEVENS would not have had the opportunity of excepting the *Telegraph*, in his speech, from the list of those Republican papers in the State that sustain the course of Congress.

THE Louisville *Democrat*, which affects to speak for the Simon-pure democrats of Kentucky, characterizes the *Journal* and *Courier* of that city, which also claim to be democrats, as "sheep in wolves' clothing." The wolves will not be set back any at this unexpectedly finding two sheep among them.

A DISPATCH from Norristown, Montgomery Co., states that the Republicans carried that borough at the late bozough election by 35 majority, and that the Republicans of the County had met with unusual success in the township elections.

IN view of the endorsement of the Fenian movement by the New York Board of Aldermen, the Philadelphia *Bulletin* proposes that the name of that city be changed from New York to New Cork.

RAILROAD MONOPOLIES.

The Philadelphians are just now exercised about Railroad monopolies; but the railroad monopoly that hurts them is not that of the Pennsylvania Road, which is a crushing monopoly throughout the State, but the Reading Railroad, which has a monopoly of the coal trade. *That* monopoly is all wrong, in the eyes of Philadelphia; but the other is all right. Why cannot Philadelphia be consistent, and unite with us against *all* railroad monopolies, instead fighting one while it holds on like grim death to another?

The Philadelphia *Bulletin*, referring to this subject, says:

"Suppose the city of Pittsburgh, with its vast and unequalled deposits of coal, dependent upon a single line of railroad to furnish the fuel to her people, and to her furnaces and factories, and that road owned and managed by interests rival or hostile to her own. Her situation would be rather precarious. Nature, however, has given her the Youghiogheny, Monongahela and Ohio rivers—great water highways, improved by the hand of man."

If we have these highways no thanks are due to Philadelphia or the Pennsylvania Railroad. If they could have been reached by the hand of legislation they would have been blotted out of existence long ago, by the votes of Philadelphia members on the one hand and the influence of the Pennsylvania Road on the other.

RECOGNIZING CONGRESS.—In the correspondence lately sent to the Senate by the President, bearing upon the question of reconstruction in the South, is a letter from Mr. SEWARD to Governor MARVIN of Florida, which contains one very significant remark. The governor had forwarded a copy of his proclamation ordering a State convention, and accompanied it with a general letter on the situation in the State. To this Mr. SEWARD, on the 12th of September, responded that "the steps taken to reorganize the government of Florida seem to be in the main judicious, and good results from them may be hoped; *for it must, however, be distinctly understood that the restoration to which your proclamation refers will be subject to the decision of Congress.*"

The Secretary of State thus distinctly recognizes the power of Congress to decide upon the question of reconstruction, and in making this admission he yields the whole question at issue between Congress and the President.

In addition to the extract above given, the following telegram to Gov. SHARKEY, is contained in the correspondence communicated to the Senate:

"Washington, July 24th, 1865.—William L. Sharkey, Provisonal Governor of Mississippi. Your telegram of the 21st has been received. The President sees no reason to interfere with General Slocum's proceedings. The government of the State will be provisional only until the civil authorities shall be restored *with the approval of Congress.* Meanwhile, military authority cannot be withdrawn. WM. H. SEWARD."

THE Philadelphia *Inquirer* starts the foolish story that Gen. CAMERON recently waited on the President and demanded the office of Secretary of War. Nothing could be further from the truth. Gen. CAMERON not only has no desire for that place but would refuse it if offered to him. Like every other loyal Pennsylvanian he desires to see Secretary STANTON remain there.

A Compromise Measure.

The Senate Caucus Committee have finally agreed to report Mr. Broomall's original amendment to the Constitution. It is believed it can be carried through the Senate, or that it is certain to come within one vote of it. There will be no trouble in the House, it is believed to be so drawn that no State which disfranchises rebels will suffer thereby in representation. This makes it acceptable to Missouri, Maryland and Tennessee. The proposition is as follows:

"Representatives shall be apportioned among the several States which may be included within this Union according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But whenever in any State the elective franchise shall be denied to any portion of its male citizens above the age of 21 years, except for crime or disloyalty, or participation in the late rebellion, the basis of representation of such State shall be reduced in the proportion which the number of male citizens so excluded shall bear to the whole number of male citizens of 21 years of age."

AFTER a session of ten days, prolonged debate, and action upon more than 90 distinct propositions for amendments, the Texas Convention, on the 26th ult., adopted the following amendment to the Constitution of the State:

"SECTION 1. African slavery, as it heretofore existed, having been terminated within this State by the Government of the United States, by force of arms, and its reestablishment being prohibited by the Constitution of the United States, it is declared that neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist in this State, and all negroes and their descendents shall be protected in their rights of person and property by appropriate legislation; they shall have the right to contract and be contracted with, to sue and be sued, to acquire, hold, and transmit property, and be subject to no penal laws based upon inequality or distinction of race.

"SEC. 2. Africans and their descendants shall not be prohibited, on account of their color or race, the right to testify orally as witnesses in any case, civil or criminal, involving the right of, injury to, or crime against any of them, in person or property, under the same rules of evidences as are applicable to the white race; the credibility of their testimony to be determined by the court or jury hearing the same. The Legislature shall have power to authorize them to testify in all cases, under the regulations here set forth, as to facts hereafter occurring."

THE richest individual in Massachusetts is a boy, the son of the late Joshua Sears, a Boston merchant, who died leaving this son as his sole heir. His property was appraised at about $1,800,000. The trustees under his will invested the most of it in real estate on Franklin street, the dwelling houses of which they demolished almost entirely, to make room for the finest blocks of stores in the city. The investment proved highly judicious; the property has more than doubled on their hands, and now reaches an aggregate of over $4,000,000 in value. The lad who is to own this is now being brought up in the family of Hon. Alpheus Hardy, one of the trustees, who is a leading Boston merchant.

WAR CLOUDS IN EUROPE.—As Austria declines to concur in such a settlement of the Schleswig-Holstein question as would give the Duchies to Prussia, it is anticipated that the latter Power will appeal to arms, the *ultima ratio regum*, and declare war against Austria. It is said that all the Austrian troops in Bohemia have been ordered to Altona, which is the principal city of Holstein, close to Hamburg, and that Prussia has ordered three army troops to be got ready for active service at once. If Austria gets involved in a war with Prussia, the annexation of Venetia to the Kingdom of Italy may be expected, almost as a certainty.—*Phil. Press.*

GENERAL SCHENCK has succeeded in having incorporated in the Appropriation bill a section providing five thousand dollars for the erection at West Point of memorial tablets and for the expense of inscribing upon rebel guns the names of the batteries in which they were captured. The immediate necessity for this special appropriation was caused by Chief Engineer Delafield's recent letter to the Inspector at West Point prohibiting him from doing this thing lest it might wound the feelings of Southern students.

AN Alabama planter, writing to Congressman Blow shows the effect of emancipation at the South:

"I am happy to state to you that our free negroes are doing finely. We have no trouble with them. They have all gone to work manfully. They give an impetus to trade that's never before had. I have sold Jack Peters negroes more goods this year and last year than I ever sold Peters, and he owned four hundred and fifty negroes. So you see the free negro system is working well with us."

THE Treasury Department is informed that there are five counterfeits on the $50 issue, four on the $20, two on the $5, $10 and $100, and over fifty on all the denominations of fractional currency.

GENERAL NEWS.

Of all the products of our soil, foreign countries need and demand but one—cotton. Of every thing that field, orchard, pasture, garden, stalls and poultry yards afford, an American manufacturing population readily takes and liberally pays for. When foreign countries need our wheat, and tobacco, and salted meats, they will take them, and not otherwise. Why do not all of our farmers see that they have a greater interest than any other class in America in building up a Home market through a persistent protection of manufacturing?—*N. Y. Tribune.*

ONE of Dickens' characters came to poverty through distresses "not unconnected with the indigo trade;" but persons who now deal in that article are not likely to suffer. According to an official return the business in indigo in England last year was equal to eleven million dollars of American money. Most of it came from Bengal and Pegu. About three-fourths of the whole amount was re-shipped for exportation; the United States receiving 6,686 cwts.

"RIDICULUS MUS."—The old proverb of the mountain bringing forth a mouse, was thus rendered by Senator Sumner in his speech on the Constitutional amendment relative to suffrage:

"Regarding it as a proposition from Congress to meet the unparalleled exigencies of the present hour, it is no better than the miscipular abortion sent into the world by the parturient mountain."

THE Treasury Department has decided that coupon bonds stolen, and afterwards passed to innocent purchasers, cannot be reclaimed by the loser. The decision is doubtless correct. Parties who wish to secure from loss in the case of theft, purchase registered bonds, inasmuch as they are payable only to the order of the holder to whom they have been legitimately transferred.

THE SHOE BUSINESS.—The North Bridgewater *Gazette* says the shoe manufacturers of that town have not experienced so great a depression in the shoe market for years as just at present, and there seems to be no prospect of relief for some time to come. Hands in some of the shops are on half time, and in others they are working up the stock on hand, with the expectation of then "loafing."

THE ice bridge over the Niagara River at the foot of the American Falls still remains intact, and is crossed daily by hundreds of people at the point known as "The Ferry." The ice in the river between the Falls and Suspension Bridge could be measured by the million cords, and it is estimated that the river will not be clear before the middle of May.

—GOV. OGLESBY, of Illinois, Gov. Bullock, of Massachusetts, Gov. Stone, of Iowa, Gov. Smith, of New Hampshire, Gov. Fairchild, of Wisconsin, Gov. Fletcher, of Missouri, Gov. Blair, of Michigan, Gov. Lowe, of California, have either by speech or telegraphic dispatches sustained Congress against the President in the most specific and emphatic manner.

THE total number of hogs packed in Chicago during the season just closed is 501,462, against 750,147 last season—showing a falling off of 248,685. The average yield of lard is 41 per cent., more than last year. The total number of cattle packed is 25,723, against 92,159 head last season. The diminution is 66,431 head.

THE New Albany *Ledger* says: "Along the line of the Jeffersonville Railroad hence to Indianapolis, the winter wheat looks most promising. Farmers from Jackson, Bartholomew and Johnson inform us that a much larger area of land was sown in those counties last fall than during any previous season in the past five years.

WISCONSIN abolished, several years since, the Death-Penalty. In her present Legislature, a concerted, determined effort has been made to restore it, and the political feelings incited by the war were counted on to insure its success; but the bill was on Saturday defeated in the House by a vote of 50 to 54.

IN the Senate of Nevada on the 24th ult., a concurrent resolution approving the veto of the Freedmen's Bureau bill, and thanking Senator Stewart for voting to sustain that veto, was indefinitely postponed by a vote of 15 to 1. Only the mover of the resolution, a Democrat, voted in its favor.

CLYMER AT A DISCOUNT.—The Copperheads in Congress are very much disheartened at the hopeless character of the Democratic canvass for Governor in Pennsylvania. They generally think the selection of Clymer a grand mistake.

IN the anthracite coal regions the price of mining has been reduced from two dollars to ninety cents per car, and wages by the week from $18 and $20 to $8 and $10. The price of coal at the mines has been reduced to $3.75 per ton.

THE receipts of coffee at the port of New York, for the year just closed, were one hundred and thirteen million pounds, over the receipts of the United States, and thirty-three and a-half millions.

GOOD NEWS FROM MARYLAND.—The earnest Union men of Maryland are very confident of being able to carry the State at the next election. Creswell will, therefore, be re-elected to his seat in the Senate.

RAYMOND, of the N. Y. *Times*, aspires to the seat of Mr. Harris in the United States Senate. A recent visit to Albany, however, satisfied him that he had no chance whatever.

THE English papers says that the baggage of all persons who visit the papal dominions is rigorously searched, and if revolvers or Bibles are found they are at once confiscated.

PROPOSALS FOR SAFES AND LOCKS.

WASHINGTON, D. C., March 1st, 1866.

Sealed Proposals will be received at the office of the Superintending Architect, Treasury Department, Washington, until 12 M. of the 20th April, 1866, for furnishing the Burglar Proof and the Burglar and Fire Proof Safes required by the Treasury Department, and for the erection and completion of the same at the office of the Treasurer of the United States.

Specifications and drawings for the Burglar Proof Safes, showing the form of construction and material used, viz: alternate plates of iron and hardened steel, can be obtained upon application at this office.

Burglar and Fire Proof safes will be constructed in the same manner and closed with a double fire proof covering, the plans and specifications for which must be submitted by the bidder.

Safes to be shipped in perfect condition within a reasonable time from date of order.

The Locks will be furnished by this Department, but must be put in place by the contractor, and be in perfect working order when the Safe is turned over to the proper officer of the Government.

The bids to be per superficial foot, measured on the outside, and to cover all charges whatever, including painting and door fixtures, (except cost of locks.)

Proposals will also be received for Burglar and Fire Proof Locks, to be accompanied with samples.

All bids must be accompanied by the guaranty of two responsible persons in the sum of $1,000, that if the bidder will accept and perform the contract if awarded to him, the sufficiency of the security to be certified to by the District Attorney of the district where the bidder resides.

The Department reserves the right to reject any or all bids, or to award the contract for Burglar Proof Safes to one party, and the Burglar and Fire Proof Safes to another, if it be deemed for the interest of the Government to do so, and no bid will be considered that does not conform to the requirements of this advertisement.

Proposals to be endorsed "Proposals for Safes and Locks," and addressed to A. B. MULLETT, Actg. Supervising Architect, Treasury Department, Washington, D. C.

A. B. MULLETT, Acting Supervising Architect.

SPECIAL NOTICES.

AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some bit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and the fluids move on in healthy motion, and health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them, caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Colic, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague Remittent Fever, Chill Fever, Dumb Ague, Periodical or Bilious Headache, Bilious Colic, and Bilious Fevers, indeed for the whole class of diseases originating in disordered derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Ague and Fever, and it has this great advantage over other Ague Cures, that it contains not the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce cinchonism or any injurious effect whatever. Shaking brothers of the army and the west, try it, and be cured of your shaking at once.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by J. K. HAMILTON & CO., and by all Druggists. mh16-2md&wF

RETROUVEY'S TURKISH

JANDOLENIAN HAIR TONIC.

THE DRESSING AND RESTORER OF THE AGE

—TURKISH BANDOLENIAN.—

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore hair in a way by stopping the hair from falling out, restoring the natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fast fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Toate* will do, and for proof we refer you to any person who has tried it. If to acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name, in Turkey, in France, in England, in America, wherever where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons, and are combined in most Hair Colors and dressings; it is the extract of many healing herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

TUESDAY, March 20, 1866.

Gold still continues to decline, being quoted in New York to-day at 127¼. As the gold premium declines, the intrinsic value of our currency appreciates, and this is the consummation that all wished for when gold was quoted at one hundred per cent premium. Now, that this favorable result is being brought about, it is looked upon with protracted fear and distrust in certain circles. We say pretended, because no amount of *ex parte* argument will convince sound financiers that the decline in gold can possibly be the precursor of financial disaster. A sudden contraction of the currency, brought about by legislation, might lead to serious disturbances; but nothing of the kind is going on at present. Our national finances are in a more prosperous condtion than the most sanguine anticipated at the close of the war. The government incomes are exceeding the expectations of the head of the Treasury Department, and the reduction of our public debt has already begun and will be rapidly continued.

—Sale of Stocks on Tuesday evening, March 20th, at Commercial Sales Rooms, 106 Smithfield street, by A. McIlwaine, auctioneer:

Bank of Pittsburgh	68 08
Exchange National Bank	66 75

—In obedience to a resolution of the House of Representatives, passed on the 5th instant, the Secretary of the Treasury furnished Congress, on Saturday, with a statement of the amount of money now in the public Treasury, including all sums in the keeping of Assistant Treasurers, National banks and all other depositories, designating the amount in each separately. The Secretary says:

"I transmit herewith a communication from the Treasurer of the United States, together with statements prepared by him furnishing the information called for by the resolution, from which it will appear that the available balance in the Treasury, according to returns received to the 10th instant, is $123,428,885 91, consisting of coin; $57,789,921 37; currency, $65,623,964 54. Of which sum $21,780,358 35 was on deposit in National banks designated as depositories."

—The New York *Tribune*, of March 19, says:

"Action upon the bill to fund the currency obligations of the Treasury is waited for with interest in financial circles. There is little doubt that the Secretary will be granted the power required to get the National debt into a condition where it can be steadily reduced from surplus incomes. The movement toward specie payments has proceeded so far that nothing can prevent the desirable condition of affairs at an early day. Congress, by wise counsel in aiding the currency, may prolong the troubles of people obliged to pay fixed sums of money from assets, steadily falling in value, but it cannot save people from the inevitable losses attending the passage from gold at 280 to 100."

—The New York *Commercial Advertiser* says:

"The effect of the decline in cotton upon the manufacturing interest is indicated by the fact that a few days since a large manufacturing house at Providence, R. I., failed for about $1,000,000, through having on hand a large amount of cotton purchased at high prices, and also a heavy stock of manufactured goods."

The trade in dry goods (says the *Tribune*) continues extremely dull. There is no confidence in prices among buyers, and quotations of domeste cotton goods have still further declined, standard sheetings being now held at 34 cents, while prints are 1@1½ cent lower than a week ago. The trade in foreign dry goods is still done almost exclusively through the auction room, and few goods are to be sold better than at a loss. There have been some failures among small firms during the week.

—The import entries at New York for the past week, including dry goods, amount to $5,809,878, against the total entries of $3,107,864 same week last year. The export clearances of domestic produce amount to $2,652,267 against $1,072,269 same week last year. The customs for the week are $2,464,559. The receipts of cotton coastwise and by railroad, are 19,639 bales. The number of emigrant passengers arrived during the week, 4,292.

—The defeat of the finance bill in the House of Representatives at Washington, on Friday, caused little concern. The debate that preceded the vote on the bill showed a diversity of opinion among members which renders it improbable that Congress will agree upon any definite policy of finance. The impression is more general that the Secretary requires little if any legislation to carry out his policy. The Act of March 3, 1865, it is believed, confers upon the Secretary of the Treasury the power needed for funding into a permanent form the whole of the outstanding interest-bearing obligations of short date. The discretion accorded by that act to the Secretary is to choose what wide one; but perhaps not more so than is really required for effecting the purpose contemplated. Mr. McCulloch has authority to fund seven-thirties, compound interest notes certificates of indebtedness or temporary loans into 5 or 6 per cent bonds, running not over forty years. What more can be needed? There is no description of securities into which the short obligations could be funded which he has not full authority to issue to the extent required, and the only problem remaining to be solved is, what form of bond would be most calculated to induce a funding of the entire short debt, while still conserving the interests of the Government? Let Mr. McCulloch settle that question and act accordingly, making known his policy to the country through a formal proposal, to remain in force for six months, inviting conversions.—*Phila. Ledger*

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 20, 1866.

CATTLE—The supply of cattle on sale yesterday was again up to the usual average, the whole number in the pens being estimated at from 900 to 1000 head, and as the demand was restricted almost entirely to supplying the wants of the retail trade, the market ruled a little dull, though prices, as compared with last week, underwent no essential change. There was little or no inquiry on the part of shippers, and we presume 50 head would be a fair estimate of the number sold for that purpose. The falling off in the demand for the shipment is in consequence of the unfavorable condition of the Eastern markets last week, and those who had cattle there have lost money, and they have no idea of trying it again this week, for fear they might again meet a similar fate. As will be seen by reference to the sales, prices ranged this week at from 5 to 5½ for common; 6 to 6¼ for medium and 7 to 7¾ for prime to extra.

HOGS—Continue dull and neglected, but as the arrivals continue light, prices, in a retail way, remain about as last week, ranging from 9¼ to 10¾, for fair to good averages. Emerick & Co., bought 70 head from Uleery, averaging about 160, at 8½; and Patterson sold Emerick & Co. 34 head, averaging about 150, at 8¾. It is worthy of remark, that the great proportion of the Hogs now coming in are light, averaging from 150 to 200 lbs.

SHEEP—There was a fair retail demand for Sheep this week, and while the market was apparently more active and a shade firmer prices, as compared with last week, have undergone no material change, and fair to prime fat mutton Sheep may be fairly quoted at 6 to 7 cents, gross, and common at 5 to 5½. Lafferty & Co. retailed 172 head for Logan, at 5¼ to 6¾; Kerwin & Co. retailed 92, at 6 to 6,40; and Duff retailed 100.

SALES OF CATTLE.

Reis & Co. sold 20 head of good cattle, to go Oil City, at 6,90; and retailed 70 head of fair to prime western cattle at 5,90 to 7¼. Carr & McAlister retailed about 100 head at from 6 to 7¼. Rothchilds & Eckert sold Mark Eichman 30 head of prime cattle at 6¾; and retailed 45 head at 5,@7. Lafferty & Co. retailed 30 head for F. A. Logan at 6@7; also, 58 head on their own account at 5,@7¼. Liggett sold Shriver 36 head of fairish steers, weighing 56,965, at 5,90; Kaufman sold Myers & Bro. 18 head, averaging 1125, at 6¾; Buell & Baird sold Greenwald & Co. 16 head, averaging about 1100, at 5¾. Stroupe sold Myers & Bro. 15 head of oxen, averaging about 1200, at 5¾. Emerick & Co. retailed 17 head for Isaac Anderson at 5@6; and 15 head on their own account, at 5@6¾. Greenwald & Kahn retailed 67 head—nearly all good cattle—at 6@7¼. Merrick & Doud retailed 85 head 5@6¾. Cox sold 20 head, averaging 1100, to Greenwald & Kahn, at 6¾. Crouse & Huss retailed 59 head at 5¾@6¾. Shriver sold 17 head to Greenwald; Marks & Trautman retailed 63; Myers & Bro. 35; C. Marks, 12; C. Metz, 14.

New York Cattle Market.

NEW YORK, March 20.—The current prices for the week, at all the markets, are: Beef Cattle, first quality, per head, $17@18; fair to good quality, 13@16,50; common quality, $11@13; inferior quality, $8@11. Cows and Calves, extra, selling 100; first quality, $80@90; ordinary quality, $65; common, $50@60; 1 ferior, $40@50. Veal Calves, first quality, per pound, 14½c; ordinary quality, 12@13c; common quality, 10½@11½c; interior quality, 10@10½c. Sheep and Lambs, extras, per head, $9; prime quality, $7@8; ordinary quality, $5,50@6,50; common quality, $4,50@5; inferior, $4,50@5. Swine heavy; corn-fed, per pound, 10½@10½c; light and medium, 10½@10¾c; still-fed, 10¼@10½.

There was a decided break in the Cattle market this week, prices declining from 1@2c per pound, yet the market was by no means overstocked, the supply being only about what had all along been regarded as fair cattle, which, however, were mostly poor. The bulk of the offerings were from 13 to 16½c; comparatively few sold above 17½. This has been the hardest day for owners they have known for many months.

Veal Calves dull and heavy. Thanks to the Health Commissioners the market is no longer glutted with miserable carcases, and the market for good cattle may be expected to rule. Sheep and Lambs were fairly active at the prices. Hogs in moderate demand at the above prices. The total receipts of all stock, for the week, for this week and last week at all the yards, for this week and last week are as follows: Beeves, 5,328; Cows 150; Veal Calves, 702; Sheep and Lambs, 16,307; Swine, 7,207. Total, last week: Beeves, 5,341; Cows, 133; Veal Calves, 516; Sheep and Lambs, 14,822; Swine, 7,022.

Chicago Market.

Special Dispatch to the Pittsburgh Board of Trade.

CHICAGO, March 20.—Flour dull and unchanged. Wheat weak at $1,24½ for No. 1 Spring. Corn, firmer at 40 to 40¼ for No. 1. Oats, firmer at 24@25 for No. 1. Rye, 53. Mess Pork, weak at $25. Lard, nominal at 18@18½. Petroleum, free, Whisky, dull at $2,21@2,22. Petroleum, free, 58. Hides and Wool, unchanged.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, March 20, 1866.

The inclement condition of the weather together with the depreciation in the gold premium have a tendency to retard business, which, at best, has been very much restricted for some time past, and as the demand for produce, generally, is very light, and confined almost wholly to supplying the immediate wants of the retail trade, we have but very few round lot operations to record.

GRAIN—There is no demand for Wheat, and the market is dull and prices nominally unchanged. Oats scarce, but the demand is very light; we continue to quote at 40@41, on track, and 42@45, for small lots from store; sale of 500 bush at 42. Barley dull and entirely nominal. Sale of 400 bush. prime Rye at 82, delivered at depot—sold to a miller. Corn is selling in small lots from store at 63@66, for Shelled and Ear.

FLOUR—Is quiet and steady, but unchanged. Sales from store in a regular way at 8,75 for Spring; 9,@9,25 for half Spring and half Winter, and $10,50@10,75 for all Winter. Rye Flour is dull—small sales at $5@5¼. Cornmeal is quoted at 3,@3,75 per bush.

PROVISIONS—Bacon continues dull, and prices are drooping. Sale of 4000 lbs Shoulders at 12¾@14,5 00 lbs Ribbed Sides at 16¼, and 7000 lbs Sugar Cured Hams at 22½. Lard is quiet and unchanged at 18@18¼. Mess Pork dull—quoted at $29,@29.

SEEDS—Cloverseed is dull and nominal, with a supply largely in excess of the demand; small sales at 6@6¼. Timothy Seed is quoted at $4,@4,50. Flaxseed is less active but unchanged.

BUTTER—Prime Roll is scarce and in demand, and we have sales reported at 45 to 50.

EGGS—In demand and the arrivals are falling off; sales of 3 bbls at 25, and 7 bbls at 25.

CHEESE—Is steady with sales at 20@21 for common Ohio, and 24@25 for Hamburg and Goshen.

POTATOES—Dull but unchanged; sales of 200 bbls reported at $3,35@3,50 per bbl.

GREEN APPLES—Sales in lots of 120 bbls reported at $8 per bbl.

ASHES—Common Soda Ash is quoted at 8 cts. Small sales of Pearls at 12.

PIG LEAD—Dull and lower—quoted at 10½.

DRIED FRUIT—Dull and unchanged. Sales of Apples at 13 to 15, and Peaches at 15 to 20, for quarters and halves.

OIL—Sale of 25 bbls No. 1 Lard at $1,75

MILL FEED—Is dull and neglected with a drooping tendency, and the demand is almost wholly of a retail character.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE MONDAY, March 20, 1866.

CRUDE—The market for Crude was dull and heavy to-day, owing to the unfavorable advices from the East and decline in gold, and buyers, who a few days since were willing and anxious to buy at 12¼@13, have retired from the field at present, in hopes that by holding off they will be able to force Crude dealers to make still further concessions. We can report sales of 525 bbls, in the spot, at 12½; 200, to arrive, at 12½; 1500, on the spot, at 12½; and it is said there was a sale of 2000 bbl at 23, packages included, delivered free on board vessel in Philadelphia. The fact that Refined is drooping every day, almost, has a tendency to depress Crude, as Refiners seem unwilling to buy at present quotations, when there is a possibility, and we may also say, judging from present indications, a probability that both Crude and Refined will go still lower. The arrivals continue light; which is owing to the fact that Crude men are in no particular hurry about getting their oil to market.

REFINED—There is no improvement to note in gooded oil, and with but a limited demand, prices are still tending downward. For immediate delivery, in Philadelphia, 37 cents was the best offer of any account to-day; 39 for May; 40 for June, and 41@42 for July. As yet, our refiners refuse to sell at these figures, but, if we can judge the future by the past, buyers may look for concessions. We can report sales of 925 bbls, in the spot, at 12½; 200, to arrive, at 12½; 1500, on the spot, at 12½; and it is said there was a sale of 2000 bbl at 23, packages included, delivered free on board vessel in Philadelphia. The fact that Refined is drooping every day, almost, has a tendency to depress Crude, as Refiners seem unwilling to buy at present quotations, when there is a possibility, and we may also say, judging from present indications, a probability that both Crude and Refined will go still lower. RIVER NEWS.

ARRIVALS.

Forest City	Gordon	Parkersburg.
Peerless	Russell	Oil City.
Ida Rees No. 2	Rees	Oil City.

DEPARTURES.

Leni Leoti	Hamilton	Parkersburg.
America	Goldding	New Orleans.
Echo	Gordon	Oil City.

BOATS LEAVING TO-DAY.

Savanna	Jolly	U. Mississippi.
Forest City	Gordon	Parkersburg.

RIVER, WEATHER, ETC.

The river was about stationary at this point last evening, with nine feet in the channel by the Allegheny marks. The weather yesterday was wet and exceedingly unpleasant, and the snow which fell on Monday is rapidly dissolving from view. It is altogether likely that by to-night or to-morrow our rivers will again be rising rapidly under the influence of the recent rains.

There has not been a single transient arrival since our last report. The Leni Leoti got in from Parkersburgh, and left again on time, and the Forest City, from the same point will be found at the wharf this morning.

The Ida Rees No. 2, and Peerless arrived from Oil City, and the Echo cleared for that point last evening, with an excellent trip.

The America left for New Orleans yesterday afternoon with an excellent freight list, and about all the passengers she could accommodate. In accordance with orders received from Washington, prohibiting the transportation of Petroleum on steamers, unless provided with magazines something similar to those for securing powder, Capt. Golding was compelled to store a quantity of Refined Petroleum which he had receipted for and taken on board before the prohibitory order was made known.

The Carrie Brooks, Capt. Jas. Darlington's new Zanesville and Parkersburg packet got off early yesterday morning. It is generally conceded that the "Carrie" is the finest steamer, in point of style and finish, that has ever been built for the Muskingum River trade.

The Savana, Capt. Jolly, did not get off for the Upper Mississippi as expected last evening, but she will leave to-day without fail. Mr. H. B. Waring the clerk, will see that passengers receive every proper attention.

The high-headed Armadillo, Capt. Sweeny, is announced for the Missouri river, and persons intending to emigrate to that part of the country should bear this fact in mind.

The Edinburg, Capt. Thompson, will be the next packet leaving for Cincinnati and Louisville, as will also, the Financier, Capt. Darragh, for New Orleans. The Camelia, Capt. Lytle, will be ready to leave for Nashville about the latter part of the week.

The Silver Lake, Capt. Todd, is next on the list for St. Louis, and the Columbia, Capt. R. J. Porter, is announced for the Upper Mississippi.

The Lorena, Kate Robinson and Robt. Moore were advertised to leave Cincinnati for Pittsburgh on Monday evening last.

The Wheeling *Intelligencer*, of Tuesday, says:

A dispatch received in this city yesterday by Messrs. Booth, Battelle & Co., from Capt. Charles Mollohan, at Cincinnati, announced the sale at Cincinnati yesterday of the Phil. Sheridan. No particulars given other than that she sold for $10,000 advance on cost. She will make one more trip to Wheeling. A St. Louis Company are believed to be the purchasers.

SKIRTS.

NEW SKIRT FOR 1866.

BRADLEY'S DUPLEX ELLIPTIC (OR DOUBLE)

SPRING SKIRTS,

Manufactured exclusively by the sole owners of Patent,

WESTS, BRADLEY & CARY,

97 Chambers, and 79 & 81 Reade Sts.,

NEW YORK.

Each Hoop is composed of TWO finely tempered steel springs, braided tightly and firmly together edge to edge, forming the STRONGEST and most FLEXIBLE Hoop made. They will not bend nor break like the single springs, but will ever preserve their graceful lines of shape where three or four ordinary skirts will have broken and worn out.

In fact, for the promenade or the house, the church, theater or car, they are superior to all others, combining COMFORT, DURABILITY and ECONOMY, with that ELEGANCE OF SHAPE which has made the DUPLEX ELLIPTIC THE

of the fashionable world.

Merchants will be supplied as above and by Pittsburgh Jobbers and ladies in all the first-class retail stores in this city. Inquire for
